## Clarifying the Fundamentals of Complete Denture Fabrication

### Course Description:

This series of exciting denture courses addresses the fundamental principles and techniques for fabrication of complete dentures. Implementing these fundamentals in your practice should lead to better quality edentulous restorations, increased patient acceptance of new complete denture restorations, more fulfillment for the dental team fabricating dentures, and increasing treatment efficiency and decreasing the time required to fabricate and adjust dentures. This live, interactive webinar is divided into 5 modules with opportunities for Q&A.

### Topics Will Include:

- **Module 1:** Addresses why dentures are unpredictable and how to improve predictability and success. Oral exam/consultation; wants and expectations of the patient.
- **Module 2:** How to make final impressions more easily and determine posterior borders of dentures.
- **Module 3:** Determine vertical dimension of occlusion, centric relation, and acceptable tooth positions. Recording accurate bite records more easily.
- **Module 4:** Wax try-in and patient acceptance, processing dentures with injection processing.
- **Module 5:** Delivery of complete dentures and adjusting occlusion more accurately and easily.

**Date & Location:** Live Webinar from 6:00 – 7:30 PM CST

- Module 1: Wednesday, October 14, 2020
- Module 2: Wednesday, October 21, 2020
- Module 3: Wednesday, October 28, 2020
- Module 4: Wednesday, November 4, 2020
- Module 5: Wednesday, November 18, 2020

**To Register:** Contact Trish Jones at [trish.jones@ivoclarvivadent.com](mailto:trish.jones@ivoclarvivadent.com) or 901-277-2159

**\*It is strongly recommended that you attend all modules**

**CE:** 1.5 hours per module

**Fee:** Complimentary

### Dr. Leif Stromberg, DDS, MAGD

M. Leif Stromberg, DDS, MAGD enjoys practicing restorative dentistry in Dallas, Texas, at Preston Hollow Specialists. He has written a textbook on advanced techniques for predictably successful dentures, and his presentations at many dental conferences have contributed to the quality of dentistry throughout the United States over the years. Dr Stromberg has been selected by his peers for inclusion in *Texas Monthly Magazine* as a Texas Super Dentist 13 times (2005 through 2017) and has been inducted into the Texas Super Dentist Hall of Fame. Dr Stromberg served as a clinical assistant professor in the Department of General Dentistry at Baylor College of Dentistry - A Component of Texas A & M University Health Sciences Center [now Texas A & M College of Dentistry] in Dallas from 2000 through 2005.
